

Beyond the threshold.

The Adventurer’s Guidebook to the first two floors of the Abyssal Core. Know the terrain, respect its inhabitants, and prepare together. Every dungeon instance can be different.

The Whispering Woods

Listen closely. Travel together.

Ancient forest · mist · shadows

Heightened danger

Ancient trees crowd beneath a canopy of shadow. Mist softens every outline, and whispers seem to come from every direction. The second floor is considerably more dangerous: its inhabitants are stronger, cleverer, and harder to see.

 Carry light and antidotes. Watch for ambushes, avoid disturbing spores, and respect the forest’s guardians.

Paths & safer routes

Main trail

The winding central path is relatively safer, but Whispering Hounds and Phase Spiders still ambush travelers.

Shadowy pathways

Mist-covered side trails are used by dangerous creatures. Possible discoveries come with greater risk.

Treant’s Domain

Ancient trees and a carpet of fallen leaves. Peaceful treants may offer refuge if you earn their trust.

Places to look for

Whispering Hollow

A natural depression where the whispers grow loudest. Travelers say careful listening may offer insight into the forest.

Spider Nests

Hidden high in the canopy or deep in the woods. Valuable silk and venom come with considerable danger.

Treant Grove

A sacred grove where Heartwood Core may be found. Its guardians may permit harvesting by friends of the forest.

Mushroom Glades

Faintly glowing clearings thick with toxic spores and valuable alchemical ingredients.

Spectral canines that strike rapidly from mist and shadow.

Known drops: Hound Fang, Whispering Fur, rare Ethereal Essence.

Woods Phase Spiders

Phase in and out of existence, making them difficult to hit or avoid.

Known drops: Spider Silk, Phase Venom, rare Dimensional Shard.

Dire Wolves

Large, aggressive pack hunters. Stay together and avoid being isolated.

Known drops: Dire Wolf Pelt, Wolf Teeth, rare Moonlit Fur.

Treants

Ancient forest guardians, generally passive until their home is threatened.

Known drops: Treant Bark, Treant Sap, rare Heartwood Core.

Spore Mushrooms

Release toxic spore clouds when disturbed. Give the glades room.

Known drops: Spore Pouch, Glowing Cap, rare Fungal Essence.

Work together. Respect the forest. The guide offers a starting point, not a promise. Paths, resources, and encounters may differ between journeys. Decide how your party will regroup before entering.
